

Saves Time

Lasts Longer

Daveles steel posts save you time. The Daveles system does away with the frustration of threading and re threading fence wires. The Daveles system is great for netting and uses no clips. Just one drop in retainer secures all fence wires at once. The Daveles Steel Fence Post is a premium product and is galvanised to ensure it will last longer in all environments.

Made In New Zealand.

Simple Tie off for Daveles Post

Daveles Steel Fence Post

- Save time on installation
- Repair tired fences in a fraction of the time
- No clips or lashing required
- Higher tensile steel for extra strength
- Galvanised for longer life

Boundary Fences

Daveles long posts are available for boundary fencing. With un-authorized access to farm land becoming more critical, using 13/190 wire on boundaries is proving more popular. Daveles 2.1m, 2.4m and 2.6m posts provide a fast and economical solution.
